DOVETAIL AWNING

Dovetail Awnings are a preferred choice of awning for commercial premises, while also offering strong fixed shading designs for residential homes.

Each awning is custom made and can accommodate the profiles of shop fronts, cafes, restaurants and homes. They can be applied around corners and the framework can be curved to create visually stunning pieces that will really make your business or home come alive.

Dovetail Awnings are an excellent way of promoting shops, restaurants and commercial businesses to the outside world while offering a permanent shading solution.

Constructed from a powdercoated aluminium frame with high quality, 100% acrylic canvas covers.

A wide selection of premium acrylic canvas and frame powdercoating colour options are available.

Full branding opportunities create a strong and enhanced street presence.
