Commercial Quality Shade Sails

# SHADE SAILS

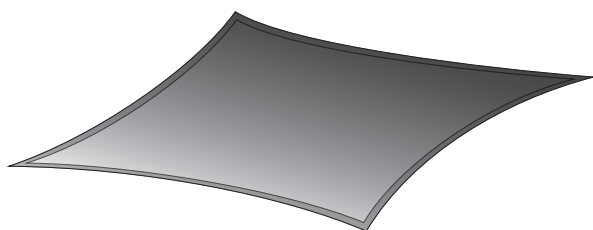

Shade Sails can be very effective at shading large areas while maintaining an open space and outdoor feel. They are ideal for children's play areas, car parks, outdoor spaces at restaurants, bars and cafes, and any public space that requires quick and low cost shade solutions.

Each sail can be incorporated into the existing built form or installed to new steel supports, creating new spaces and accentuating existing outdoor areas.

We custom make our Shade Sails to last in Perth's commercial market, and only use heat set and high tensile shade cloth together with lifetime warranty threads and Grade 316 Stainless Steel fittings.

Our Shade Cloth has less shrinkage and is more stable than other shade cloths, while maintaining high strength and over 90% UV protection. It is made from virgin resins and the best UV stabilizers which are lead and heavy metal free. It is supported by a 10 Year UV warranty and is made to Australian Standards: AS 4174-1994. Available in 16 colours.

Option for high strength Ferarri 502 PVC available in an additional 40 colours.
